R/O's Boyatt and Hartinger responded to Embassy to continue interviewing potential witnesses.

Spoke to Greg Henry, maintenance worker. He clocked in at approx. 0700 hrs. on 9-3-94.

He states that he was with the other maintenance, Charles Obannon, Michael Hajjalie,

Art Armacost doing 'floor runs' on the first floor, when he heard a scream. Looked around and saw the commotion on the second floor, people pointing, and then he ran to the second floor to the room. He first saw a short heavy woman at the door, apparently the woman who screamed. She was obviously in shock, and pointing towards room 237 door. Henry states that

Jesse Wallace was in the room and Greg went in. He noticed that the woman was nude, was laying in a position that suggested someone placed her arms at her side, not a natural

position. She had blood about her nose, mouth, ears. Henry says that he then ran to the front desk to get help, and talked to Valena at the front desk to make sure EMS was called, and she said she did. He went back to the room, where there was now a lot of people. A person identified himself as a doctor and began to work on the woman. Some of the kitchen help was there, but after the doctor worked on her they stayed back.

He did help the medics up to the scene via front door. He states he did not call on the walkie-talkie about calling 911. He mentioned too that the woman had wet hair, not from the blood but from ~~XX~~ possibly just getting out of the shower. After the medics left ~~XX~~ and he helped them out, he went outside to check the perimeter of the room for footprints but found none.

He was asked if he heard anyone mention that they heard a scream before the woman was found and he stated he heard other employees ~~XX~~ say that someone from room 337, above victim's room, did hear some commotion and screams, but discounted it as children playing.

9-13-94-1254 hrs. R/O's interviewed Jesse Wallace. He was the front line cook in the Cascades restaurant at the time. He heard screams, and after looking around and seeing the area

of the screams, ran to the steps by elevators, up to 2nd floor, to room. He was first there

(continued) saw the nude lady on the floor. He began to give CPR and got others to help.

Jesse says he was a medic in the ARMY, and in Vietnam and knew how to handle this kind of thing. Said she was laying like she was put there (like laying in a coffin). He grabbed some towels from the bathroom (3?) but someone else brought towels to the room.

He remembers someone saying call 911 over the walkie talkie, can't remember if it was Greg Henry or not. Other persons there were the DR. (cardiologist) Greg Henry, Erline Metcalf, and family members. He feels that something is suspicious because one of the medics, or possibly the doctor asked 'How did she get from the couch to the floor?'. (paramedics may have simply asked that as routine due to C.P.R. being given, neck injury, etc.) He seems to think her hair was dry except for the bloody areas.

E.O.R.

This statement Jesse 3/palice made on 9/13/94 is what he said & done on the morning of Sept 3, 94 surrounding the events that occurred. Is totally inconsistencies with his statement on 11/6/96 3 1/2 years later, as if he is being told what to say that day.

This statement on 9/13/94 is clear to who was in the room with him that morning - & where in his statement on 9/13/94 he mention my name & say he think he saw Butch, but was not sure - He name the people in the room with him

D-3 -responded to Embassy - interviewed Art Armacost - states he recalls that Jesse Wallace had been awfully fast in responding to the victim's room. He thought it peculiar that Wallace seemed to know exactly where to go and what to do. Also states that when the screams were first heard at about 0800 hrs., he and Charles Obanion were in the area of the front lobby and then ran to the 2nd floor. At no time did he observed Butch Jones in the Cascade's area.

-interviewed Jesse Wallace - states he was the cook in the kitchen and comp breakfast area that morning beginning at 0430-0500. He states he was in the back kitchen area from 0500 until about 0630. From 0630 until the screams at 0800 he was on the "line" facing the Cascades serving food at compl breakfast. He states that from his location on the "line" he had full view of the Cascades restaurant and at no time did he observed Butch Jones cleaning tables there. He doesn't recall seeing Butch Jones at all on 9-3-94

-interviewed Greg Henry - states he Art and Charles Obanion all left the maintenance area together and all were in about the same location when the screams came out at about 0800. He states that at no time did anyone put out a "911" over the walkie-talkie for fear of a panic. He states that he ran to the 2nd floor, saw what was going on, then ran to the fornt desk and personally requested a "911" call for squad. He also does not recall seeing Butch Jones in the Cascades area at the time.

-Interviewed David Kabrin - Restaurant supervisor-states he clocked out at 0003 hrs 9-3-94 and came back into work at 0930. He wasn't around for the situation.
